

New Product Highlights

GSA Global Supply has something new just for you. The products you see in this section are a small portion of the thousands of new items that we have recently added to our product assortment.

TIGHT STORAGE SPACE?

Bubble Wrap that Inflates When You Need It

The new Inflatable Bubble Wrap® packaging system automatically inflates flat plastic sheeting and dispenses pre-perforated 3/4" high Barrier Bubble® material. A cost-effective, space-saving solution for on-site, on-demand packaging, the Inflatable Bubble Wrap® packaging system

new product highlights

- Provides cushioning and filler
- Uses standard 110 volts
- Supplies its own air
- Operates simply and easily...
A built in sensor keeps the portable bin filled
- Greater cushioning protection
- Low material cost
- Reduced storage space and freight cost

Price \$2,800.00 (EA)

Replacement inflatable bubble wrap

NSN 8135-01-518-6573 U/I 24 rolls/pack.

STORAGE SPACE A PROBLEM? REUSABLE

The Uni-Pak System is a complete durable, versatile, and cost effective storage and shipping system, designed to handle a variety of materials.

The system eliminates costly time-consuming banding and stretch-wrapping systems. Constructed of heavy duty, AAA, fluted configuration fiberboard sleeve, plastic top cover, and a bottom plastic pallet with 4-way entrance capability, pallets and tops can be reused between 50 and 100+ times. Sleeves extend to the floor providing unmatched top-to-bottom compression strength. Palletized loads can be stored up to 4 feet high, with the bottom container capable of withstanding up to 10,000 pounds. Bottom pallets and tops come in convenient 40" x 48" dimensions, and are designed with the nesting capabilities to save space and to provide a secure stack. Sleeves are collapsible, designed to occupy nearly 30% less space than traditional systems. System is reusable and is designed for years of service.

Knife Sharpeners

These knife sharpeners are easy to use and insure a sharp edge every time you use them. Simply place the sharpener flat side down on any firm surface and draw your knife back through it. Right-hand action. A 20-degree shoulder can always be maintained, and it will never destroy your knives' temper. Each sharpener has a hardened ceramic honing surface to keep your blades honed and polished. The blades have a beveled carbide edge and are replaceable. The rounded edges of the body will sharpen serrated blades. Each sharpener has a V-groove for sharpening hooks, darts, and taxidermy needles. Furnished in a black nylon sheath. Used for sharpening knife blades used by the military.

Standard Knife Sharpener

Pencil-like shape with knurled handle.

Order # 5110-01-514-7770
